

NEW Provision	Where	What to check
Forest management (FM)	KP-Suppl 2.7.5, 2.7.6	Methodological consistency between FM and FMRL (technical correction)
Harvest wood products (HWP)	KP-Suppl 2.8	Methodological consistency between HWP in FM and in FMRL, consistency with FAO data; HWP from D excluded
Natural disturbances (ARD, FM)	KP-Suppl 2.3.9	Methodological consistency between ND in FM and in FMRL, background level and margin, conditions required to exclude emissions
Conversion of natural to planted forests	KP-Suppl 2.7.5, 2.7.6	GHG estimates reported separately
WDR	KP-Suppl 2.12. Wetlands Ch. 2 / 3	Land identification and GHG estimation follow IPCC guidance

NEW Guidance	Where	What to check
Forest definition	KP-Suppl 1.2	Documentation on criteria used to exclude from forest any areas which meet the thresholds for forest, and description of the consequences on accounting
Land identification	KP-Suppl 1.3, 2.2	D land subject to subsequent regrowth of forests continues to be reported under D as a subcategory; WDR; CEFC; CM/GM during CP2
Generic methodological issues	KP-Suppl 2.3	Not a source for aggregated pool; Correct implementation of C stock change methods when areas change; Interannual variability in GHG estimates
AR, D	KP-Suppl 2.5, 2.6	Enhanced guidance on direct human-induced; CEFC
CM, GM, RV	KP-Suppl 2.9-2.11	Land identification and GHG estimation reflect the minor changes in IPCC KP Suppl

Decision 529/2013/EU

- Submit asap all the relevant Activities
- The "explanatory information on methodologies and data used for CM/GM" should be provided at the latest as separate annex together with the submission of the NIR to the Commission.
- Prepare for the "information of system in place to estimate CM/GM..." to be submitted from 2016
- "easier than initially thought" – things are moving! share experience is key!
Learn-by-doing exercise: Time to improve estimates during CP2

UNFCCC / KP

Uncertainty on timing, linked to release of functional CRF reporter.
Emphasis will be given to the submissions under the Convention.

Suggestions for next meeting:

Session on Projections
